After many fundraising activities and appeals through various media outlets, the choir was able to travel to Poland for two weeks in 2005. With them they took a third CD with a compilation of Polish/English hymns and Australian traditional songs.

The tour began from the nation's capital Warsaw and included Częstochowa, where the highlight was the rare honour of singing in front of the Blessed Madonna. The congregation joining the choir in singing "Barka (The Ark)", Saint Pope John Paul II's favourite hymn, was a cherished moment.

The tour also included a visit to Kraków, Zakopane, and Zamość. In between performances, the children were able to visit historic landmarks and places of significance like Auschwitz.
